Rochester Plastic Surgery Center Offers Effective New Technology for Cellulite, Skin Tightening and Face and Body Contouring

Plastic Surgery Arts & Spa announces Lipo Shaper, a non-invasive aesthetic device that tightens skin, re-contours the face and body, reduces cellulite (orange peel). This safe treatment works for all skin types and colors, and offers solutions to the inevitable problems of weight gain and aging skin.

“Prior to bringing Lipo Shaper into the office we tried the procedure on several patients,” said Tina Polleiner, Facility Director for Joseph E. Mark, MD at Plastic Surgery Arts & Spa. “They loved it so much they brought their husbands in for treatment!”

The Lipo Shaper technology is a non-surgical alternative to weight loss and body re-contouring. Tighten lines and sagging skin and remove excess weight without pain and down time. Patients see results from the first treatment and know that each treatment brings better results.

- Tighten the jaw line, reduce jowls, re-contours the chin line, and reduce excess tissue under the eyes.
- Smooth the orange peel look caused by cellulite, tighten loose skin and re-contours body measurements.
- Firm the breast; tighten loose skin under the arms or on the stomach.
- A non-surgical alternative for obesity and liposuction treatments.
- Excellent for pain relief and increased healing recovery – Sports Medicine – Post Surgical Surgery Free Alternative for Skin Tightening Cellulite (Orange Peel) Face and Body Contouring

Plastic Surgery Arts & Spa is located at 1886 West Auburn Road in Rochester Hills. Joseph Mark, M.D., F.A.C.S., is a Board Certified Plastic Surgeon with more than 28 years of practice in the art of plastic surgery.
